## Waiver for Allergy Injection

**It is our recommendation and request that you always wait in the clinic for a minimum of twenty (20) minutes after every allergy injection for us to assess and treat any adverse reaction.**

Although reactions to allergy injections are extremely rare, they can sometimes be very severe and occasionally life-threatening.

If you do not wish to wait in the clinic as detailed above, we ask that you sign this waiver of responsibility for any significant adverse reaction that may arise as a result of your allergy injection.
